PROFESSIONAL SUMMARY

Senior Cybersecurity and Infrastructure Engineer with over 7 years of experience in enterprise IT and security. Specialized in designing, implementing, and optimizing complex Identity & Access Management (IAM), Public Key Infrastructure (PKI), and secure remote access solutions for high-scale organizations. Proven track record in leading end-to-end delivery of security projects across financial and government sectors, with a strong focus on building secure-by-design architectures and modern automation.

PROFESSIONAL EXPERIENCE

Senior Network & Cyber Security Engineer

Integrity Software | May 2022 – Present

- Architected and deployed secure NetScaler ADC environments focusing on Gateway, Load Balancing, and complex rewrite policies for enterprise web applications.
- Implemented advance authentication workflows including Single Sign-On (SSO) using SAML, OAuth2, and MFA integrations.
- Spearheaded professional services delivery to government and financial clients, providing full-cycle technical leadership from design to knowledge transfer.
- Optimized Application Delivery solutions to improve both security posture and application performance across diverse client environments.

Professional Services Engineer

Securenet (AMAN Group) | Feb 2021 – May 2022

- Engineered CyberArk PAS solutions including Vault, CPM, and PSM modules for major financial institutions.
- Deployed enterprise-grade PKI using Microsoft ADCS, EJBCA, and DocuSign to secure internal communications and document workflows.
- Integrated SafeNet Trusted Access (STA) to deliver unified SSO and secure authentication layers across client infrastructures.
- Conducted server and system hardening on critical infrastructure to meet strict compliance and internal audit standards.

System & Security Administrator

Altshuler Shaham | Aug 2019 – Dec 2020

- Managed a 600+ VM infrastructure using VMware vSphere while maintaining mission-critical Citrix and Exchange environments.
- Built and secured enterprise PKI infrastructure from the ground up, significantly improving internal security trust chains.
- Led enterprise Active Directory upgrades and modernized internal operational processes using PowerShell automation and GPO management.
- Deployed MDM and IAM systems to secure endpoint access and streamline identity management.

System & Security Administrator

EDP Group | Mar 2018 – Aug 2019

- Maintained complex IT environments for multiple high-profile clients, ensuring 99.9% uptime for core communications.
- Administered FortiGate firewalls including advanced SSL VPN configurations, granular security policies, and VIP management.
- Executed database migrations and managed Priority ERP deployments on MS-SQL Server environments.

IT & Communications Specialist

Israeli Air Force | Mar 2015 – Mar 2018

- Led a specialized technical team responsible for the 24/7 operation of mission-critical communication and intelligence systems.
- Participated in national-scale infrastructure projects, focusing on network monitoring and secure system deployments.
- Authored and enforced unit-wide cybersecurity policies, handling classified infrastructure and crisis communications.

PROJECTS

NetScaler OAuth Client – GitHub Repo

A modular reverse proxy sidecar for validating OAuth2 tokens in NetScaler Gateway environments.

- Designed for modern SSO environments to handle app-layer authentication seamlessly.
- Built with extensibility and containerization in mind (Docker-ready).

Infrastructure-as-Code (IaC) Portfolio

Personal repository of enterprise-grade security scripts and automation tools.

- Includes Terraform and Ansible playbooks for Infrastructure deployment.
- WAF rule sets and NetScaler policy automation in Bash and PowerShell.

ADDITIONAL INFORMATION

- Clearance:** Certified in military and civilian security clearance.

TECHNICAL SKILLS

Security & Networking: NetScaler ADC (WAF, Gateway, GSLB), IAM, PKI, SSO (SAML, OAuth2, LDAP), CyberArk PAS, FortiGate, WAF Rules

Infrastructure & Cloud: VMware vSphere, AWS, Azure, Linux (RHEL, Ubuntu), Windows Server, Active Directory, Citrix, MDM

DevSecOps & Automation: Terraform, Ansible, PowerShell, Bash, Docker, Kubernetes, CI/CD, Python, Monitoring

EDUCATION & CERTIFICATIONS

DevSecOps Program (Bar-Ilan University)

2023 – 2024

NetScaler Advanced Training (App Delivery & Security)

2022

CyberArk PAS Certification

2021

Switching & Routing (IDF - Ofek Unit)

2017

Telecom & Data Communication (IAF Academy)

2015

LANGUAGES

Hebrew (Native) • English (Full Professional Proficiency)
