Or Guetta

guetta.tech | or@guetta.tech | LinkedIn | GitHub

Cybersecurity and infrastructure engineer with over 7 years of experience across enterprise environments. Specializing in secure access solutions (NetScaler, CyberArk, PKI), IAM architecture, and cloud infrastructure security. Combining deep technical expertise with a delivery mindset to implement scalable, secure-by-design systems. Background spans military IT, financial organizations, and security consulting. Passionate about automation (Terraform, Ansible), secure architecture, and enabling fast-moving teams to stay secure without friction.

Work Experience

Senior Network & Cybersecurity Engineer | NetScaler & SSO Specialist
Integrity Software (Israel)
May 2022 — Present

- Delivering secure web access and identity solutions for enterprise and government clients
- Deploy and maintain NetScaler environments including Gateway, SSO, MFA, and Load Balancing
- Collaborate with IT, DevOps, and security teams to implement scalable, policy-compliant infrastructures
- Lead full-cycle project execution including design, configuration, documentation, and customer training

CyberArk & PKI Specialist | IAM Implementation Engineer
Securenet Solutions
Feb 2021 — May 2022

- Integrated CyberArk PAS and Inter-Business Vault for highly regulated organizations
- Designed and deployed PKI stacks using Microsoft ADCS, EJBCA, and DocuSign
- Implemented SSO using SafeNet Trusted Access and led OS and server hardening processes
- Provided hands-on support across onboarding, delivery, and ongoing integration of IAM systems

System & Security Admin | PKI, MDM & Infrastructure Automation
Altshuler Shaham
Aug 2019 — Dec 2020

- Managed over 600 virtual servers using VMware and maintained core enterprise infrastructure
- Led deployment and hardening of PKI, MDM, and IAM platforms from the ground up
- Automated operational tasks using PowerShell and optimized Group Policy configurations
- Oversaw Active Directory and Exchange upgrades in a high-availability production environment

System Administrator | SMB Infrastructure & Firewall Support
EDP Group Israel
Mar 2018 — Aug 2019

- Provided infrastructure support and maintenance for multiple SMB clients
- Managed Terminal Servers, VPN access, FortiGate firewalls, and SQL migrations
- Implemented Priority ERP systems and handled troubleshooting for Tier 2 escalations

Military IT & Network Security Specialist
Israeli Air Force

Mar 2015 — Mar 2018

- Led secure communications and IT operations in classified military environments
- Defined and enforced cybersecurity policies across mission-critical systems
- Implemented network monitoring tools and supported operational continuity 24/7

Education

Industrial Engineering, Information Systems Engineering & Management
The Open University of Israel
2021 — Present
DevSecOps Engineer
Bar-Ilan University
2023 — 2024

Certifications

- Citrix Certified Associate – App Delivery and Security (CCA-AppDS)
- CyberArk PAM Install and Configure (self-paced)
- CyberArk PAM Administration for Partners (self-paced)

Languages

- Hebrew (native or bilingual)
- English (full professional)
